Note

Major modifications: Modifications in a training centre leading to increase of training strength would be treated as a major modification. Such changes would require a fresh due diligence is being held.

Minor modifications: Routine changes such as repair, replacement or addition of equipment undertaken by a PIA without increasing training strength is treated as a minor modification. In this case PIA can undertake the activity after informing the PIA Q team, SRLM and CTSA. **No prior approval is required**. The changes will be verified during the next inspection.

Verification of deviation from due diligence for equipment at the training centre level

All items listed in due diligence will be cross checked with actual ground conditions and deviations will be entered in the due diligence report. PIA op team should explain the reasons for deviation and correct them immediately. If the deviations continue it would be treated as a condition of default and steps will be initiated under the process prescribed.

Verification of training infrastructure and candidate details

Batch and class wise verification

Verification of physical equipment and infrastructure

Available infrastructure should be verified with those as per due diligence.

Verification of daily failure report with candidates

(Note: When this is being done only the inspecting officers and candidates should be in the class room.)

Candidates should be asked about the failures on a random day from the past six working days. This report should be tallied with the daily failure report on the system for equipment:

- at the training centre level,
- in the class room,
- in IT lab and
- in domain lab.

If the findings of the inspecting official do not match with the findings based on class room discussions the inspecting team should probe further. Similarly data should also be verified with the grievances register. If the candidates' data is correct then action under conditions of default should be initiated for wrong reporting. Further, training centre will be awarded lower grading.

Basic records

Basic records of a set of randomly selected candidates will be verified by the inspecting team. If the inspecting team observes even a single error, the PIA OP team has to verify the details of all the candidates in the batch and submit compliance report within three days.
